

Planet Fitness CEO meeting: brief

Internal, not for sending. Updated 2 Oct 2026 with Golfzon's 1 Oct proposal.

THE ASK

Planet Golf: 72 Golfzon bays in 42 clubs, 2027–2029. We buy and operate on RMB asset finance. Planet Fitness gives the room and members, takes 20% of bay revenue, no capex. Leave with: a Sandton pilot agreed, club and room specs, a named ops lead.

NUMBERS (BASE CASE)

Phase 1, 2027: 20 Signature bays, 10 clubs	
Phase 2, 2028: 40 Play bays, 20 clubs	
Phase 3, 2029: 12 bays, 12 clubs	
Landed capex (was R70.8m)	R63.7m
Debt 90% / our equity	R57.4m / R6.4m
To Planet Fitness at maturity (low–high)	R13.7m/yr (9.7–16.9)
2031 revenue / EBITDA	R70.1m / R39.5m
Debt cover 2031, base / low	2.58x / 1.65x
Share 15% / 25% to PF	R10.2m / R17.1m

WHY THEY SAY YES

- R14m a year, zero capex, no operating burden
- Members already book time for a game (padel)
- Two founders decide: Manny Rivera, Mannee de Wet
- About 5 new clubs a year: zone goes in every set of drawings
- South African, founder-led

ASK THEM

1. Which 2–3 clubs for the pilot, and what rooms exist?
2. Real member counts and peak hours
3. Concession norms: share, term, exit
4. Who is their ops lead?
5. Brand rules on "Planet Golf"?

Watch out. Don't share Golfzon's prices or decks (no third-party sharing without consent). Golfzon hasn't given warranty, payment terms, lead times or a pilot date: promise no dates. Ernie Els: "advanced talks, confidential", nothing signed, no terms. 3,500 members per club is our assumption: ask for the real number.

WHAT'S NEW

- Golfzon (CEO Sean Pyun) sent its proposal 1 Oct after the 29 Sep call
- Price per sim, units 1–40: Motion Plate \$43k, Dual \$35k, Basic \$30k. Units 41+: \$40k / \$32k / \$25k
- Software \$99/month per sim. Shipping, duties, booth build extra
- Model uses units 1–40 prices throughout (conservative)
- Golfzon adds competitions, Leadbetter coaching, global app
- With Virgin Active: 272 bays combined

LIKELY PUSHBACK

- **Floor space earns money:** separate room, they get 20%, pilot 2 clubs first
- **What if it fails:** we carry capex and risk, remove at our cost
- **Why 20%:** opening position; can go to 25%
- **Service:** Golfzon plus local technician; SA service not yet confirmed
